NEW
ORANGE EVERGLOW
REPEAT BLOOMING CLIMBING ROSE
PLANT PAT. 585

A vigorous climber with perfectly formed high pointed buds of a rich coppery yellow touched with red, opening into a fairly full deep yellow or buff colored bloom.

If this rose flowered only in June, it would still be a worthy addition to our list of Hardy Climbing Roses, but it will repeat again and again during the summer and fall.

A worthy companion to our The New Dawn and you can offer it with confidence that it will give the same satisfaction.

Retails \$2.00 each; \$20.00 per doz.
Wholesale: Dormant \$1.50 each;
\$15.00 per doz.; \$100.00 per 100

GETTING IN OVER OUR KNEES—

Manpower shortages coupled with transportation difficulties will no doubt be the greatest limiting factors to the amount of business we may expect to do during the next year.

Forced to stay at home, the average home owners will have greater interest in their gardens. With the factor of food looming up big in the public mind there will be a tremendous call for vegetable plants. We can do no greater service than to not only increase our own plantings of vegetables but also extend our knowledge and service on to the general public.

Gas and rubber rationing will increase the need for more ordering through the mails and we can assure our customers their orders will receive the same good attention as in the past.

NOVELTIES

AND

Meritorious Introductions

COSMOS SENSATION—DAZZLER, H.M. A.A.S. 1943

Luscious shade of rich deep velvety crimson maroon in the popular large flowered Sensation type. The broad heavy petals overlap giving a very full single flower.

Tr. Pkt., \$0.35; ¼ Oz., \$0.50; Oz., \$1.75

EXACUM AFFINE ATROCOERULEUM

A choice dwarf pot plant item on which seed supplies are scarce. Attractive blue flowers on dwarf compact plants growing only about 6" high.

Tr. Pkt., \$1.00

MARIGOLD DWARF FRENCH SUNBURST, SILVER MEDAL A.A.S. 1943

Rich deep golden orange 2" blooms literally cover the tiny 6-8" plants. An excellent companion to the popular Spry and Yellow Pigmy.

Tr. Pkt., \$0.35; ¼ Oz., \$0.60; Oz., \$2.25

MARIGOLD DWARF FRENCH—BUTTERBALL A.A.S. 1942

Soft butter yellow, lightly tipped with maroon on the center petals. This and its companions are all ideal for pots and borders as they grow only about 6" high.

Tr. Pkt., \$0.25; ¼ Oz., \$0.40; Oz., \$1.25

NIEREMBERGIA—PURPLE ROBE A.A.S. 1942

The rich violet purple color of this variety has made it instantly popular and it probably will replace the lighter colored variety.

Tr. Pkt., \$0.50; 1/32 Oz., \$2.00

Petunia Igloo

Cosmos Dazzler

PETUNIA—ENGLISH VIOLET H.M. A.A.S. 1943

This free flowering compact growing nana compacta hybrida provides a distinct new color, rosy mauve violet. Grows 12-15" high, uniform in growth, true to color and constantly covered with flowers.

Tr. Pkt., \$0.50; ⅓ Oz., \$1.50; ¼ Oz., \$2.75

PETUNIA—IGLOO B.M. A.A.S. 1943

Described as the most uniform reckless blooming white hybrida nana compacta so far developed. The flowers are small creamy white averaging 1½" but they completely cover the plants which grow 12-15" tall.

Tr. Pkt., \$0.50; 1/32 Oz., \$1.50; 1/16 Oz., \$3.00 ⅓ Oz., \$5.00

RUDBECKIA SEMI-DOUBLE—STARLIGHT A.A.S. 1942

Three foot branching plants producing an attractive flowers on long wiry stems. The color ranges through shades of primrose yellow to mahogany, mostly bicolors with dark centers.

Tr. Pkt., \$0.50; ¼ Oz., \$1.50

SALVIA BLAZE OF FIRE

This newcomer is perhaps the earliest and most compact of all varieties. It starts to flower only a few weeks after sowing the seed and will grow only 10-12" tall. The very best sort for pots.

Tr. Pkt., \$0.75; ⅓ Oz., \$1.50; ¼ Oz., \$2.50; Oz., \$8.00

Petunia English Violet

SWEET PEA—EARLY FLOWERING TOP SERGEANT

The only Early Flowering novelty Sweet Pea we list this season. A deep blood red crimson without that objectionable touch of "blue." The stems are long and strong and the flowers are extremely large and bold faced. Greenhouse trials show it is the best crimson in the list.

Tr. Pkt., \$0.50; Oz., \$1.50; ¼ Lb., \$5.00

ZINNIA CACTUS FLOWERED GIANTS

A vast improvement over the older Fantasy type with larger bolder flowers. The petals are quilled, curled and pointed and will average 4-4½" across and 2" deep. We believe this mixture contains more colors than any other zinnia mixture.

Tr. Pkt., \$0.50; Oz., \$2.00

NOVELTY PLANTS

CAMPANULA PORSCHARSKYANA

Not really a new item but this easily grown sort is so lovely and little known that we think it deserves wider attention. The foliage is an attractive green all summer and it forms mats approximately 6" high covered in May with sky blue star-like flowers.

\$2.00 per 10; \$15.00 per 100

GEUM WILTON RUBY

The darkest and very best of all the hardy type geum. The large glowing red flowers are held erect on 18" stems. Perfectly hardy this will sell on sight and give many years of pleasure in the garden.

\$2.50 per 10; \$20.00 per 100

GEUM LEONARD'S VARIETY

A unique sort with drooping strawberry pink flowers on stems about 1' high. Perfectly hardy and very unusual.

\$2.00 per 10; \$20.00 per 100

PHLOX SILVERTON

Each year we are impressed with the clean growth and habit of this variety. The flowers are unusually large, carried in good sized heads and the color very nearly duplicates that of the Canadian Phlox divaricata.

\$1.75 per 10; \$12.00 per 100

PHLOX SALMON BEAUTY

Another attractive introduction that probably will become a standard sort. The very large flowers are a rich salmon pink with a distinct white eye.

\$1.75 per 10; \$12.00 per 100

TRITOMA GOLDMINE

An attractive light yellow that produces from June until frost.

\$2.00 per 10; \$15.00 per 100

VIOLA BEAUTY OF LARONE

More free flowering than any other hardy viola, starting to bloom under the snow in spring and continuing until the ground freezes. The flowers are very large and of a rich blue purple.

\$1.50 per 10; \$10.00 per 100

Cassandra

Novelties in greenhouse Chrysanthemums and also standard varieties are offered on pages 35 to 39.

The variety pictured above is Cassandra, a bright orange bronze that matures naturally November 5th-10th. It responds well to shading and will produce an early crop without fading.

We strongly urge early ordering to avoid disappointment.

FINE GREENHOUSE SNAPS

The selection of the best varieties and the best possible strains of these was never as important as now. You may select with confidence any of those listed below.

Better Times. Deeper colored Christmas Cheer.

Bronze Christmas Cheer. Deeper than suntan in color, non-shattering and flowers at same time as Christmas Cheer with better stems.

Christmas Cheer. Definitely the best early pink.

Jersey Maid. Fine, early large flowered, light pink.

Mary Ellen. Very free flowering, extra early, light pink.

Peggy Schumann. Medium rose pink.

Schlegel's Early Yellow. Early, bright, lively yellow.

Talisman. Bronze and gold shades with double and semi-double blooms.

Earlier Westover White. A good all season white, fast producer and especially good in hot weather.

Yuletide. Early Red. Gold Medal N. J. Florists' Assn.

Originators' Packets any of the above \$2.00

Any three \$5.00; Any five \$7.50

Bezdek's White Wonder. Excellent early white.

Ball Lavender. Comes quite true to its light, lilac lavender color.

Ethel. Splendid early yellow, recommended to replace Ceylon Court.

Glorious Earlier Selection. Will flower several weeks earlier than the regular type.

Gilberts' Pink Supreme. Deep rose, preferred by many over Rose Queen.

Koester's White. Most growers are enthusiastic about this and many claim it is the best white.

Klondyke Supreme. Rich deep yellow with very vigorous growth. Excellent for late winter and spring.

Maiden's Blush. Appleblossom pink. Free flowering and early.

Marie Louise. Light shell pink, best for spring bloom.

Lucky Strike Improved. A distinct improvement in Lucky Strike. Earlier and with more and better spikes.

True La France. Light pink and absolutely true to type and color.

Terry's Surprise Improved. Rose shaded orange.

White Prosperity. Standard white for continuous mid-winter bloom. Produces early and often.

Windmill's Lilac. Absolutely true to color and probably the best in this shade.

Originators' Packets any of the above \$1.50

Any three \$4.00; Any five \$6.50

STANDARD SORTS:

Afterglow. Favorite, golden orange.

***Ceylon Court.** Old standard yellow. We recommend Yellow Gold.

***Ceylon Court Dark Selection.** Preferred by many because of the deeper color. We recommend Ethel.
Cheviot Maid Supreme. Probably the heaviest grown of all pink snaps and still a favorite with many.
Christmas Red. Extra early crimson.
Coates Yellow Perfection. Bright yellow that will bloom early if handled properly.
***Lucky Strike.** Vigorous, late white.
Miss Wooster. Light golden bronze. Early.
New Cincinnati. Standard, light pink.
New Dawn. Early, free flowering, golden orange.
Radiance. Profitable, free flowering, medium deep pink.
Rose Queen. Vigorous, deep rose.
Rose Pink Cheviot. A really fine selection.
Snow White. Excellent late white. Recommended to replace Lucky Strike.
Suntan. Early flowering orange tan.
Westover White. Highly profitable with some growers.
White Wonder Reselected. Stronger growing than the type otherwise very similar.
Winter Orange. Made a hit last season and proved a profitable sort for all who tried it.
Velvet Beauty. The standard American Beauty Red.
Velvet Supreme. A velvety crimson selection.
Yellow Gold. Extra fine early yellow. We recommend this in preference to Ceylon Court.
 Varieties marked * have been discontinued by the Originators. Seed offered is greenhouse grown; but by other growers.

Originators' Strains of any of the above standard varieties at straight **\$1.00** per packet.

Most of our customers prefer originators' seed as it is nearly always more true to type. We can also supply above mentioned standard varieties, not originators' seed, at **\$1.00** per packet; any three for **\$2.50**; any five for **\$3.50**; ½ packet **\$6.00** each. This seed is less liable to be true and therefore we recommend originators' strains.

RUST RESISTANT GARDEN SNAPDRAGON (220000)

These rust resistant sorts give us another useful summer cut flower. The majus grandiflorum or maximum types are best for this purpose and with cloth or sash protection really worthwhile material can be produced.

ASTERS

(12000)

The name Bodger stands at the top of the list as producers of extra fine strains of asters. We handle their seeds exclusively.

Wilt is a soil borne disease and can only be entirely prevented by soil sterilization. Where the soil is reasonably clean of this organism, good result may be had with wilt resistant strains such as we offer.

Yellows is carried mainly by leaf hoppers and to prevent infection, cloth or greenhouse protection is necessary. The longer stems and larger flowers usually pay for this extra care.

PETUNIA

ALL DOUBLE

DWARF FRINGED

Victorious Strain (220000)

The All Double Petunia has become an almost indispensable item. Excellent as a bedding item they make splendid pot plants for Easter and Mother's Day sales.

Many of our customers sow as early as October to make heavy fours and fives for Easter. Keep them close to the glass and grow cool for best results.

All of the seed offered has been carefully tested for germination and has proven satisfactory. Because of its scarcity and value, we recommend especial care in preparing the soil for sowing and after care with regard to watering, shading and transplanting.

Tr. Pkt.

Amaranth Red. An extra dwarf plant with flowers of the same beautiful shade as Gottfried Michaelis. One of the best for pots.

Blue Brocade. An excellent color somewhat similar to the popular Admiral. Quantity prices below would not apply.

Daintiness. This lovely appleblossom pink will be a welcome addition to the color selection.

Orchid Beauty. 1938 novelty which received an Award of Merit in the A. A. S. Color is orchid or lilac heavily veined deeper lilac or violet.

Rosy Carmine (World Beauty). Probably the most dwarf of all and preferred by many for its fine deep rose color.

Gaiety. 1937 novelty. Rose and white. A bright cheerful color.

Loveliness. Immense flowers of soft La France pink with an occasional touch of white. This was one of our most popular colors last season.

Pure White. Extra dwarf and of the purest white.

Special Blend. Includes some of all colors with a larger percentage of Loveliness and Rosy Carmine.

Price on above all Double Varieties

GIANT DOUBLE RUFFLED AND FRINGED

Originally developed from the famous Shepherd strain. Noted for its fine color range, this has been refined to where it is considerably more compact and produces 95% double fringed flowers of immense size. This is superior to the All Doubles for bedding and box work and when carefully grown makes a good pot plant, although because of their vigor they are inclined to get too tall unless given plenty of light and air. Available in Red, White, Pink and Mixed.....1/64 Oz., \$6.00
Any Three \$5.00

STOCKS FOR FORCING

(19000)

Seed of stock for forcing has always been more or less unpredictable with regard to the percentage of doubles it will produce. Selection of the strongest plants, growing in rich soil and proper feeding has been standard practice, but even under these conditions sometimes the percentage of doubles is too low for profit. To use all possible safeguards, our grower plants a quantity of each lot of seed and any lot that does not prove up to standard, is discarded.

Careful comparative tests have proved that our strains are equal to the best available and we feel convinced that we can satisfy the most critical.

MAMMOTH FLOWERED COLUMN

New White

SNOW PEAK. Several years of trial convince us that this new white is one of the best in this color. The flowers are a snowy white, well placed on the stems and **it will bloom two weeks earlier than all other column stock.**

The percentage of doubles averages about 55% which is lower than most varieties, but careful selection of notched leaved plants will bring this up considerably.

PERENNIAL FLOWER SEEDS

Growing many perennials we naturally can obtain seed of many items. The rigid selection which is followed to maintain the superior quality of our plants reacts to the benefit of the seed. Many items produce better seed elsewhere and of these we purchase seed from the world's best specialists. For detailed descriptions, see plant list.

One ounce will produce approximately 2000 plants.

Wherever possible we offer certified seed. This means the seed plants from which it was collected were checked and certified by a government official as being true to type and strain. They are worth the slight difference in cost.

Where quality results are not necessary we can supply good seed of high germination at much lower prices and will be glad to quote you.

NOTE—Varieties marked * are especially good for forcing. Crown picked seed is from the earliest selected fruits.

ROSES

We recommend planting dormant roses in the fall and very early spring. Experience has shown that results with dormant plants are very uncertain after April 1st, and for that reason we offer potted roses only in our spring list. Prices on this type of material are naturally higher but results are so superior, there is no question of value because the element of loss and complaint is practically eliminated.

THE NEW DAWN—Plant Patent No. 1

First truly hardy, repeat blooming, climbing rose. Will give a continuous bloom from early summer until stopped by frost.

The dark green glossy foliage is ornamental at all times, and practically immune to insects and disease. The flowers are exquisite in form, delicate blush pink in color and excellent as a cut flower because of their long stems and intense fragrance.

A real door yard rose, it can be used as an arching shrub or to cover a trellis or wall. Truly a rose you can recommend.

Vigorous 2 yr. field grown plants.

Retail: \$1.50 each

IMPORTANT

PATENTED PLANTS—All patented plants offered in this catalog are sold by us under License from the Patent owners, and it is understood and agreed to by the purchaser that they are for resale at retail only. The asexual reproduction of patented plants is reserved by the Patentees and is strictly prohibited under provisions of the Plant Patent Act.

Purchasers of Patented and nationally advertised plants shall not list or sell them at less than the established price for the current season, and not less than three of a kind at the dozen rate. Nor include them in any collection offers, except in connection with other patented roses. Neither shall they be featured in any manner or form as a premium. Failure to comply with this policy will result in discontinuance of the supply.

HARDY PERENNIALS AND ROCK PLANTS

Interest in hardy perennials is constantly increasing. Garden magazines and Garden Clubs are spreading the knowledge of the choicer items. The reasonable price at which most plants are sold is also a big factor in creating a demand that means profit to you

Many items are valuable cut flowers and they usually bloom at a time when greenhouse material is scarce. A planting of cut flower items will repay many times its original cost, with the natural increase available for resale.

PRICES: 1-3 of a variety at the each rate which is 10c added to the 100 rate. 4-24 plants at 10 rate. 25 or more at 100 rate.

Varieties marked: (r) suitable for Rock Garden;

If order totals less than 1,000, all items less than 250 will be billed at the 100 rate; 250 or more of a variety always take the 1,000 rate.

On quantities of 10,000 or more we can allow a special discount of 5%, 25,000 or more 7½%.

In addition to the above 5% discount may be deducted for cash with order.

In our Novelty Section will be found introductions by V. R. DePetris, Bristol Nurseries and Yoder Bros. Descriptions are by the originators.

Varieties marked "S" recommended for shading.

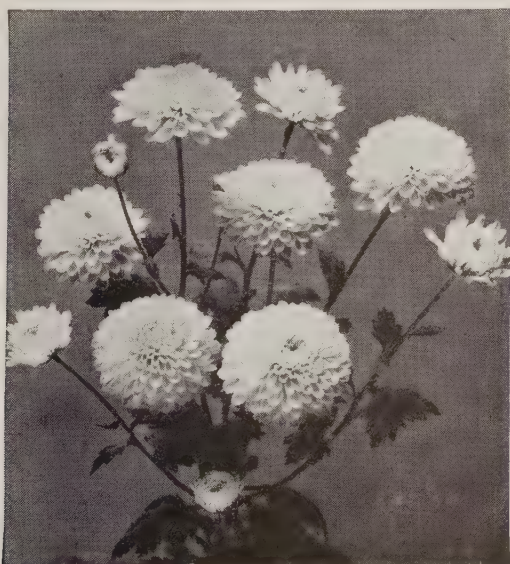

V. R. DePETRIS INTRODUCTIONS

s **Anaconda**

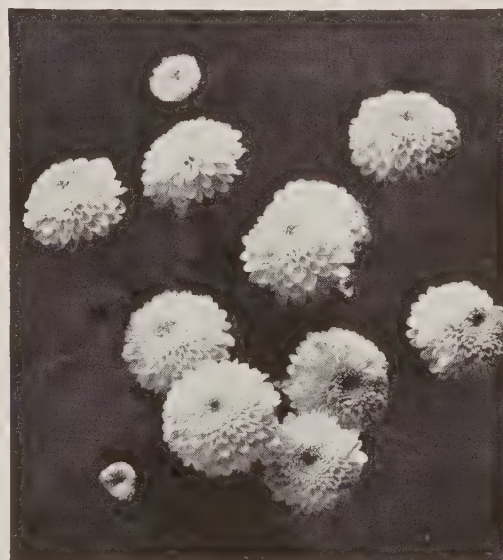

A large flowered commercial incurved possessing excellent substance and color. It is a free and easy grower with vigorous habit and resistance to disease. Forms clean strong medium tall stems with beautiful dark green medium sized foliage. Produces large blooms uniformly from any bud. Flowers do not shatter nor bruise easily from shipping or handling. The color is deep coppery red with golden bronze reverse, a shade very similar to the old variety David Roy. Date of maturity November 10 to November 15. This variety will appeal to both the retailer and to the grower. It will produce two good blooms to the plant with unusual uniformity. When shaded for early October flowering the color is a rich golden copper. We recommend this variety for its ease of culture, its high quality of blooms and its appealing color.

s **Cassandra**

A medium sized pompon having a fully rounded form and excellent substance. Strong stems carrying rigid well formed sprays. Foliage medium size and healthy. Produces bright orange bronze blooms with a crispy substance. The color does not fade or go dull as the flower matures. This variety bunches well and is a good shipper. It responds well to shading and is an excellent variety for cloth-house. Will produce an early crop of flowers without fading. Matures normally November 5 to 10. Cassandra produces an average number of high quality blooms which do not shatter and requires the same cultural treatment as the varieties Mrs. Bulkeley and Rev. Bushnell.

Golden Surprise

Seafoam

s **Seafoam**

Pure white large pompon having a full center and well rounded form. The blooms are produced on rigid and well spaced sprays. A free and easy grower with an unusually high production. Responds well to shading and well suited to cloth-house culture. Blooms November 20 to 25. This variety produces freely high quality white pompons at a period when they are badly needed.

Golden Surprise

A bright sulphur yellow pompon shading to golden yellow. Blooms on well formed sprays with rigid pedicils. The variety is of extremely easy culture, and possesses excellent glossy green foliage which is disease resistant. Will give very good production of attractive blooms having good form and substance. Matures November 20 to 25 when yellow pompons are in great demand.

THREE VALENCIA FAMILY ADDITIONS

GOLDEN JANE—A brilliant golden intensification of the original buff bronze Jane. Much brighter and more livid in color.

APRICOT VALENCIA—An entirely new and beautiful deep apricot buff sport from Dark Pink Valencia. Ranks apricot bronze as Valencia ranks pink.

RED VALENCIA—A sport from Valencia with a very versatile new color. It is a soft, pleasing tint of Brazil red.

Prices on all the above introductions
\$15.00 per 100 **\$125.00** per 1000

BRISTOL NURSERIES INTRODUCTION

Gold Imperial

A quality Pompon ready to cut about November 10. The large, perfectly-formed golden-yellow blossoms show a deeper yellow-orange center—a touch of distinction the market welcomes. The plant of a vigorous upright habit, foliage clean and healthy, good branching sprays, substance and keeping qualities excellent in every respect.

Awarded C.S.A. Silver Medal, Boston 1940; First Prize Intermediate Class, Yellow, Boston 1941.

YODER BROTHERS INTRODUCTIONS

s Navaho

Designed for a cloth house, medium, decorative, red pompon. It blooms normally November 5. Color is deep crimson; reddish bronze under early shading. Responds well to shading and fills a great need for a cloth house variety in its color range. Growth is strong and uniform. The $2\frac{1}{2}$ " flowers are well spaced on fine sprays. Stems are dark and hard; foliage is glossy, deep green. Production is very high; keeping and shipping qualities excellent. Equally valuable on raised benches or ground beds. Plant June 1-10. Final pinch July 10-15. C.S.A. Silver Medal at Boston in 1941.

s Pixie

Pixie is a large, well rounded button pompon, $1\frac{1}{2}$ " in diameter. Its color is deep golden yellow. The normal blooming date is November 10. Pixie has proven very valuable for early shading. Substance is outstandingly good, making the shipping and keeping qualities excellent. The plant is productive; the flowers are produced on stiff, wiry stems with good spray formations. This variety will respond well under a wide diversity of cultures.

Plant June 5-10. Final pinch July 10-15.

Enchantress

Enchantress is a beautiful deep pink anemone. As a disbud its blooms are 6" in diameter; as a disbudded spray it reaches 4-5". The cushion develops fast and well, giving the variety a season of December 5 and later, just a few days earlier than that of the well known variety Dark Pink Supreme. Attains a medium height with uniformly strong stems. Growers of late Chrysanthemums will find Enchantress a useful addition to their list or varieties. Plant June 15-20. Final pinch August 1-5.

Spun Gold

This variety has been on trial for several years under extensive plantings. It ranks among the highest producing pompons we know of. Spun Gold is a large decorative pompon; deep lemon yellow in color. It blooms December 15 and later. Because of good substance it ships and keeps well. The stem is medium and strong. The flowers are well spaced on rigid sprays. Spun Gold has proven equally dependable under raised bench or ground bed culture. We believe it to be another bread-and-butter variety in the same late group as Snow.

Plant June 15-20. Final pinch August 5-10.

Carillon

Carillon is a beautifully formed pink spray single. The color is a brilliant Valencia pink. Its season, December 20 and later, further adds to the rapidly growing list of valuable late varieties. Form and substance are good with the flowers spaced well on rigid sprays. Growth is fast, unusually free with no blind or vegetative tendencies. Production on Carillon is extremely high and uniform. It is versatile enough to stand relatively late planting if necessary on either raised benches or ground beds.

Plant June 20-25. Final pinch August 5-10.

s Indianapolis Yellow

This lemon yellow sport from Indianapolis Pink is another valuable addition to the very popular Indianapolis family. We think this is the best yellow mum for its specific flowering date.

LARGE FLOWERING COMMERCIAL VARIETIES

Varieties in capital letters are recommended sorts for their blooming date and color.

Honeysuckle Gold Flame

One of those introductions that seem to get better with each passing year. The delightful fragrance and free blooming qualities endear it to all who try it.

Petunia Topaz Queen

A hybrida with the dwarf habit of a nana compacta type. The flowers are of good size and at times completely cover the plant. Actually dazzling in the sunlight this is a brilliant bedding plant that will surely become a standard item.

Navaho

Designed for a cloth house. Rooted cuttings will be found listed on pages 35 to 39.

Enchantress

A beautiful deep pink anemone type maturing December 5th. This and other novelty chrysanthemums will be found described on pages 35 to 39.

The New Dawn Plant Pat. No. 1

Hardy Climbing Rose

The free flowering hardy climbing rose that has set a standard of perfection. Glossy attractive, deep green, disease and insect resistant foliage, well formed, good sized buds and flowers of delicate pink with a rich fragrance make this a real American dooryard rose. **It really blooms** from June till frost.

Anaconda

A deep coppery red with golden bronze reverse. Blooming November 10th to 15th this variety will appeal to grower and retailer alike. See under Page 35 for full description and prices of rooted cuttings.

During the season we have available transplants, rooted cuttings or 2¼" of various items such as begonia, Boston daisies, snapdragon Primula, petunia, and others.

Some of these items we list but we usually can supply many items not listed. Write us your needs and let us quote.
